

David A. Pearce, PhD
President of Innovation & Research

David.Pearce@sanfordhealth.org

David Pearce is President of Innovation & Research for Sanford Health. He has been researching Neuronal Ceroid Lipofuscinosis (Batten disease) since 1997. His research has led to the first clinical trial for Juvenile Batten disease. He has published over 100 research papers on Batten disease. He oversees a national registry for rare diseases known as the Coordination of Rare Diseases (CoRDS) at Sanford. He is currently the chair of the consortium assembly for the International Rare Diseases Research Consortium (IRDiRC). Pearce is also a member of the BDSRA Foundation's Board of Directors.
